LNG CANADA MANDATORY COVID-19 RAPID SCREENING

KELOWNA AND NANAIMO RAPID SCREENING HUBS READY FOR OPERATION ON MARCH 30

The LNG Canada Project rolled out Phase 1 of the mandatory COVID-19 rapid screening program in early January with screening hubs in Calgary and Edmonton. The Program was expanded to the Project site in early March, and to our Vancouver charter hub on March 23.

We are pleased to announce that screening at the Kelowna and Nanaimo charter hubs will begin on **March 30**. More information is provided in the following pages.

Please plan your time accordingly and **arrive at the hub location at least 3 hours before your flight** departure time.

LNG Canada and JGC Fluor continue to enforce strict COVID-19 protocols and all Orders from health authorities to protect our workforce and the community. Everyone on the Project must comply with these protocols and Orders at all times.

Please remember, if you decide to defy, challenge or attempt to bend any Orders or protocols, you will not be welcome on the Project.

MANDATORY COVID-19 RAPID SCREENING

We are implementing a phased mandatory COVID-19 rapid screening protocol for everyone travelling to the site in Kitimat. This new protocol is further described on the next page.

STAY HOME IF YOU ARE UNWELL

Do not come to the site if you are not feeling well. Stay home and contact your supervisor or COVID-19 Coordinator immediately. They will advise you on what to do next.

DO NOT LEAVE YOUR ACCOMMODATIONS CENTRE

When you are on site in Kitimat, you must remain in your accommodations centre whenever you are not at your worksite. You are **NOT ALLOWED** to visit any public establishments except in the case of a medical emergency or when attending a critical appointment that cannot be postponed or held virtually. Social gatherings are also prohibited.

HANDS – FACE – SPACE

- Wash/disinfect your hands regularly.
- Always wear a face covering in common areas.
- Always maintain a two-metre (about six feet) distance from one another.

**March 26, 2021 – PHASE TWO UPDATE # 2
KELOWNA AND NANAIMO HUBS READY FOR OPERATION**

LNG CANADA MANDATORY COVID-19 RAPID SCREENING

The LNG Canada Project is implementing a mandatory COVID-19 rapid screening for Project employees returning to the worksite in Kitimat. Please make yourself familiar with the following.

1. WHAT IS LNG CANADA'S MANDATORY COVID-19 RAPID SCREENING?

- The rapid screening involves an antigen test.
- Screening will be performed at various screening hubs on all Project employees (more information on the screening hubs is described in the next sections).
- The screening is done with a quick turnaround time for results, minimizing pre-deployment disruption.
- In addition to the rapid screening program, the Project has implemented a temporary PCR test program at site until it receives accreditation for rapid antigen screening for Cedar Valley Lodge.

2. WHAT IS THE DIFFERENCE BETWEEN AN ANTIGEN TEST AND A PCR TEST?

- **Antigen tests** detect specific proteins on the surface of the coronavirus. They are sometimes referred to as rapid diagnostic tests because it can take less than an hour to get the test results. Antigen test results are highly specific, meaning that you are very likely to be infected if your test results come back as non-negative.
- **PCR tests** detect the presence of the virus's genetic material using a technique called reverse transcriptase polymerase chain reaction, or RT-PCR. The sample is typically sent to a laboratory where coronavirus RNA (if present) is extracted from the sample and converted into DNA. The DNA is then amplified in order to produce a measurable result. However, it can take days to get the results of a PCR test.

3. WHAT KIND OF SCREENING METHOD IS BEING USED?

- The Project employs a test consisting of a swab that will be administered by authorized and trained personnel.

4. WHO NEEDS TO TO BE SCREENED?

- Screening is mandatory for every person working at the LNG Canada Project site.

5. CAN A PROJECT EMPLOYEE REFUSE TO BE SCREENED?

- Any Project employee who refuses to be screened will not be permitted on site.

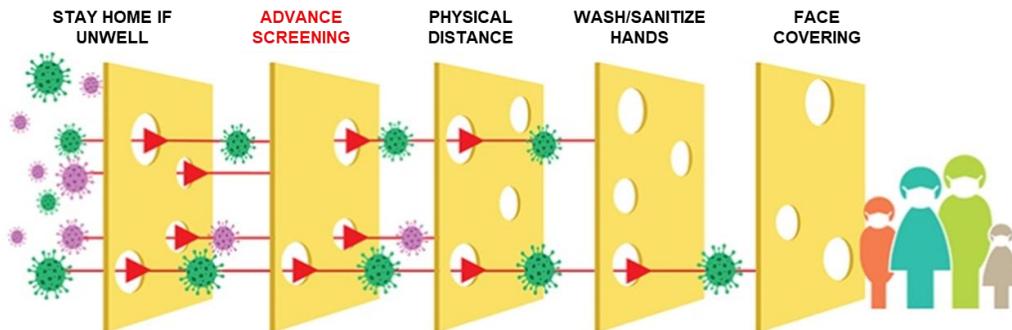

6. WHERE ARE THE SCREENING HUBS, AND WHEN WILL THE SCREENING START?

- LNG Canada and JGC Fluor require all Project employees travelling to the site in Kitimat via charter flights, commercial flights, ground transportation, personal vehicles, etc., to be screened.
- The location of your screening hub will depend on your mode of transportation and where you are travelling from:

Mode of transportation	Travelling from	Screening hub location	Start date
Charter flights	Charter terminal Calgary, AB	Canadian North Charter Terminal 393 Palmer Road NE Calgary, AB T2E 7R3	January 6
	Charter terminal Edmonton, AB	Executive Flight Centre T1 3684 53 Avenue East, Edmonton International Airport, AB T9E 0V4	January 6
	Charter terminal Vancouver, BC	The West Coast Fishing Club, 4540 Cowley Crescent, Richmond BC V7B 1B8	March, 23
	Charter terminal Nanaimo, BC	South Parking Area 3406 Spitfire Way, Nanaimo, BC V9R 3A3	March 30
	Charter terminal Kelowna, BC	Adjacent to valet parking booth 5533 Airport Way, Kelowna, BC V1V 1S1	March 30
Ground transportation (incl. personal vehicles) and commercial flights	Local (Kitimat or Terrace)	On site, Kitimat.	March 4
	Other Canadian locations		
	International locations		

7. WHY DO WE NEED TO SCREEN PROJECT EMPLOYEES IN ADVANCE?

- Rapid screening is another layer of protection to mitigate COVID-19 transmission.

- No single measure is perfect on its own, but combined, the measures we follow are powerful.

8. WHAT IS THE LNG CANADA COVID-19 RAPID SCREENING PROCESS?

- The rapid screening process depends on your transportation mode and accommodation location in Kitimat. Please read and follow the instructions carefully.

IMPORTANT!

- A) If you feel unwell, **please do not return to work**. Stay home and inform your supervisor or COVID-19 Coordinator.
- B) If you have tested positive for COVID-19 in the last two weeks via a positive PCR test result, **please do not return to work**. Stay home and inform your supervisor or COVID-19 Coordinator.
- C) If you have proven to be infected with COVID-19 via a positive PCR test result in the last 90 days, please bring along the original PCR test results to the screening hub. You will need to show these results to the screening personnel at the screening hub. You will still be required to go through the screening process.
- D) Vaccinated employees are still required to be screened.

GROUP A – THOSE TRAVELLING BY CHARTER FLIGHTS FROM CALGARY, EDMONTON, VANCOUVER, NANAIMO, AND KELOWNA HUBS.

This process applies to everyone travelling to Kitimat via Project charter flights from or through the charter terminals in Calgary, Edmonton, Vancouver, Nanaimo, and Kelowna, regardless of accommodation location in Kitimat. See attachment for address/location of hubs.

RAPID ANTIGEN TEST STEP 1

Plan your time accordingly and arrive at the hub location at least **3 hours** before your flight departure time. Once you arrive at your charter flight hub, carefully follow the signage to guide you to the screening area. Make sure you wear your face covering and maintain physical distance at all times.

STEP 2

At the screening area, you will be met by assigned screening personnel. They will brief you on the rapid screening procedure and will answer any questions you may have.

STEP 3

You will be required to show some form of identification (such as a driver's licence) to the screening personnel as they confirm your history prior to administering the swab.

The screening personnel will also explain the procedure and request your consent to proceed with swabbing.

STEP 4

While you may leave the hub location after your swab procedure is complete, we strongly recommend you remain at the hub to minimize any potential risks to yourself and others. Please maintain your physical distance and wear a face covering at all times.

You will be notified of your test results via text or email. Please inform the screening personnel if you wish to receive your test results in any other format.

IF YOUR RESULTS COME BACK AS NEGATIVE

Please proceed to board your charter flight as scheduled, and observe all other COVID-19 protocols.

IF YOUR RESULTS COME BACK AS NON-NEGATIVE

The screening personnel will advise you of the next course of action, including isolation protocol and full PCR test protocol.

Please contact your supervisor or COVID-19 Coordinator immediately and inform them of your situation.

Note your site access will be impacted for the next 14 days.

GROUP B – THOSE STAYING AT CEDAR VALLEY LODGE; TRAVELLING BY COMMERCIAL FLIGHTS OR BY GROUND TRANSPORTATION (including personal vehicles).

This process applies to everyone who will check-in at Cedar Valley Lodge, travelling via any type of transportation, except those who have been screened at Vancouver, Calgary or Edmonton charter hub.

IMPORTANT!

If you travel from **an international location**, you must first follow the current government directives for international travellers that include (but are not limited to) a mandatory quarantine period upon arrival in Canada. **Note that you are not allowed to serve your quarantine period in Cedar Valley Lodge.** Please arrange for your quarantine off-site.

PCR TEST

Mobile units will be deployed at select locations throughout the site in Kitimat, which may include Cedar Valley Lodge, the temporary construction facilities (TCF), and other work sites.

Your supervisor or COVID-19 Coordinator will inform you of your PCR test schedule and details.

IF YOUR RESULTS COME BACK AS NEGATIVE

No further action is required. Please continue to observe the site's COVID-19 protocols and measures.

IF YOUR RESULTS COME BACK AS NON-NEGATIVE

Please self-isolate immediately. The screening personnel will advise you of the next course of action, including isolation protocol.

Please contact your supervisor or COVID-19 Coordinator immediately and inform them of your situation.

Note your site access will be impacted for the next 14 days.

GROUP C – LOCALS (Kitimat or Terrace resident)/TRAVELLERS STAYING AT THEIR OWN OR A COMPANY-PROVIDED ACCOMMODATION (other than Cedar Valley Lodge); TRAVELLING BY COMMERCIAL FLIGHTS OR GROUND TRANSPORTATION (including personal vehicles).

This process applies to local employees and everyone staying at their own/personal accommodation or a company-provided accommodation except Cedar Valley Lodge, and those travelling to Kitimat via any transportation type other than charter flight.

IMPORTANT!

If you travel from **an international location**, you must first follow the current government directives for international travellers that include (but are not limited to) a mandatory quarantine period upon arrival in Canada. **Note that you are not allowed to serve your quarantine period in Cedar Valley Lodge.** Please arrange for your quarantine off-site.

Locals are required to be screened at least **once every three weeks. The screening must occur on this frequency to maintain full site access.** Your supervisor/employer will advise you of your work schedule/rotation and the related rapid screening requirement.

PCR TEST

Mobile units will be deployed at select locations at the site in Kitimat, which may include Cedar Valley Lodge, TCF, and other work sites.

Your supervisor or COVID-19 Coordinator will inform you of your PCR test schedule and details.

IF YOUR RESULTS COME BACK AS NEGATIVE

No further action is required. Please continue to observe the site's COVID-19 protocols and measures.

IF YOUR RESULTS COME BACK AS NON-NEGATIVE

Please self-isolate immediately. The screening personnel will advise you of the next course of action, including isolation protocol.

Please contact your supervisor or COVID-19 Coordinator immediately and inform them of your situation.

Note your site access will be impacted for the next 14 days.

LNG Canada and JGC Fluor will provide more details on this mandatory COVID-19 rapid screening program from time to time. Please reach out to your supervisor or COVID-19 Coordinator should you have questions.

ATTACHMENT: HUB LOCATION/MAP

Calgary, AB

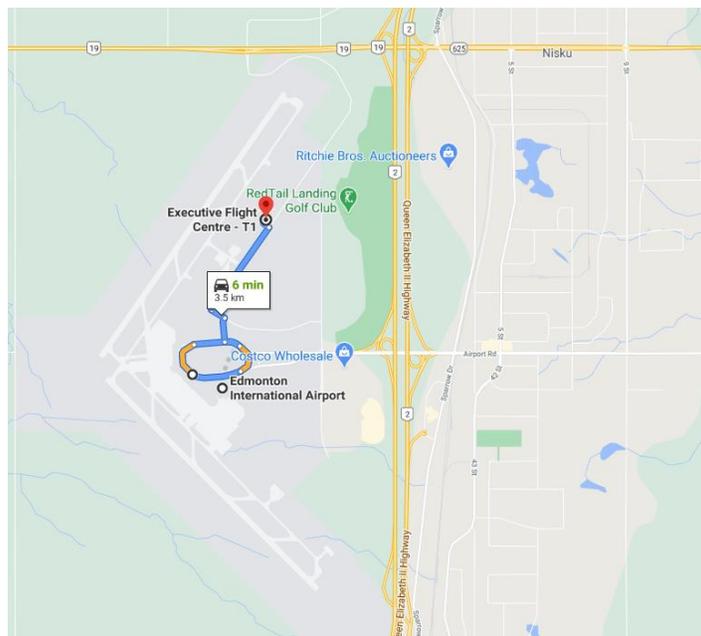

Canadian North Charter Terminal
393 Palmer Road NE Calgary,
AB T2E 7R3

Edmonton, AB

Executive Flight Centre T1
3684 53 Avenue East, Edmonton
International Airport, AB T9E 0V4

A shuttle will be available to transfer you from the screening hub at Executive Flight Centre T1 to the check-in facility at Executive Flight Centre T3.

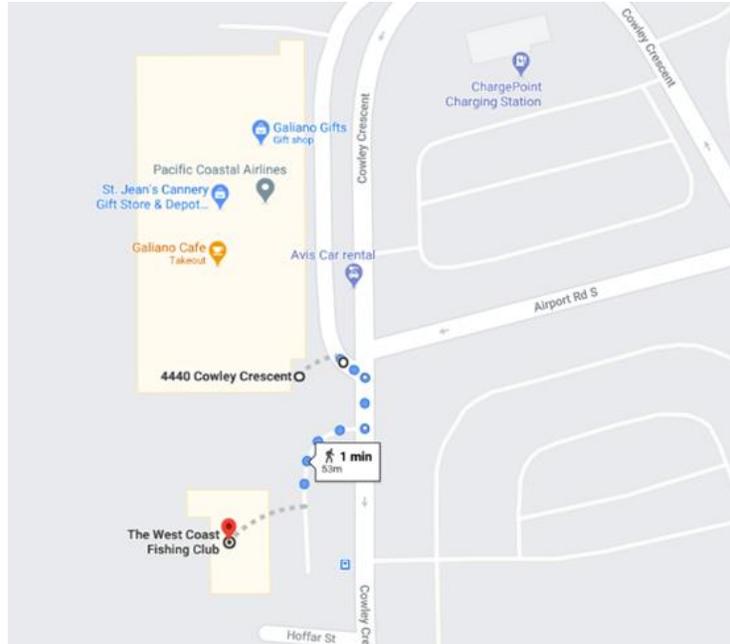

Vancouver, BC

The West Coast Fishing Club,
4540 Cowley Crescent,
Richmond,
BC V7B 1B8

The screening centre is based out of four Sea Can container offices located on the south-east side of lot #4540 Cowley Crescent at West Coast Fishing Club. Please do not enter the Fishing Club.

From the YVR South Terminal, head to the arrivals doors on the south end of the terminal building. Walk south, and you will see signage near the West Coast Fishing Lodge building directing you to the screening centre.

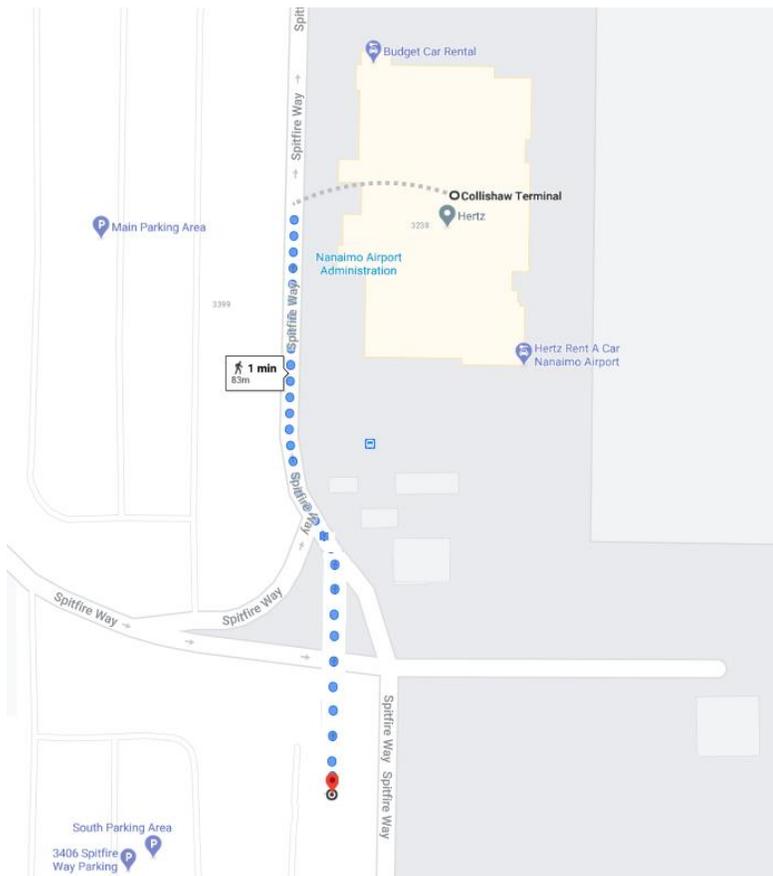

Nanaimo, BC

South Parking Area

**3406 Spitfire Way, Nanaimo,
BC V9R 3A3**

The screening centre is based out of Sea Can container offices in the south parking area.

Kelowna, BC

Kelowna Airport Main Terminal
5533 Airport Way, Kelowna,
BC V1V 1S1

The screening centre is based out of Sea Can container offices adjacent to the valet parking.

Kitimat

Mobile units will be deployed at select locations throughout the site in Kitimat, which may include Cedar Valley Lodge, TCF, and other work sites.

Your supervisor or COVID-19 Coordinator will inform you of your PCR test schedule and details.
